

Wildlife Warnings and Guidelines

For your safety and to protect your property and the well-being of wildlife in our camps we are asking for your understanding and cooperation in these guidelines.

Remember: It is a violation for any person to engage in any direct, indirect or incidental feeding of bears. Indirect or incidental feeding means: using, placing, giving, exposing, depositing, distributing, or scattering any material for a purpose other than to attract or entice bears which results in the attraction or enticement of a bear. Do not feed bears under any circumstances. Feed a Bear - Kill a Bear

1. Do not leave coolers or food out at any time. Store them securely in either the trunk of your car or in the passenger area of your truck. Keep windows shut and food and coolers out of sight. Where job boxes are provided, food and coolers should be stored and locked inside. Do not store smellables in a patrol box.
2. Clean up after meals immediately. Keep grills, pots, pans, cooking utensils, and wash basins clean when not in use.
3. Do not put grease, garbage, plastic, cans, bottles, or other refuse into the fireplace or stove.
4. Keep your campsite as clean as possible. Take all garbage to a compactor after every meal and before you retire for the night.
5. Do not keep food or coolers in your tent and do not wear anything to bed that you had on during meals or cleanup.
6. Always use two deep leadership and the buddy system at all times in camp.
7. I have read and understand the current Ten Mile River Scout Camps Leaders Guide.

I have read the guidelines pertaining to bears and wildlife and agree to follow them as a condition of my attending camp. I understand that I may be cited if any of these terms are violated.
